CANVAS HANDPAINTING

Our employees learned how to use all the tools and techniques, thanks to which we can admire the final effects in this collection.

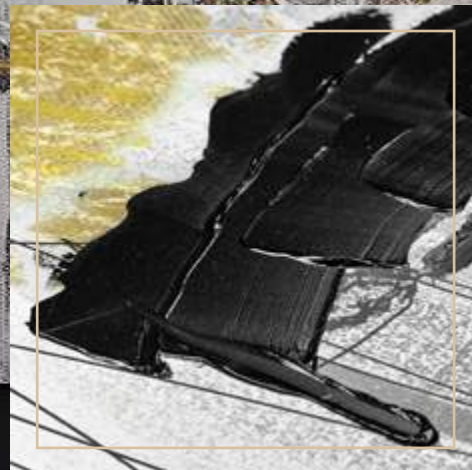

This project was quite a challenge for us - apart from learning how to paint, we also had to find media that would meet our expectations. We were looking for acrylic paints that would have the right color and finish. Thanks to the commitment and cooperation of several departments, we found a beautiful, shiny black, elegant gold and discovered the secrets of using gold flakes.

GLASSPIK METALLIC

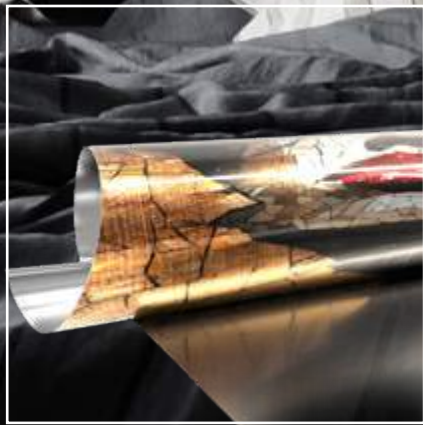

A decoration not only for the eccentric, but also for those who love the *bling bling* effect. Incredibly shimmering silver foil combined with glass creates a unique effect. This is a product that cannot be ignored. It looks best when hung in front of a window, where the angle of light creates an amazing spectacle when it meets the glass surface.
